**L' AZIENDA**  
the company

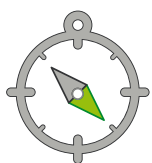

E' dagli inizi degli anni '80 che l'azienda sta espandendo i suoi mercati di riferimento, con una continua crescita sia dei paesi che del numero clienti e fatturato, con un portafoglio prodotti sempre più dettagliato per soddisfare le richieste più innovative ed esclusive.

Nel 1974 ha inizio questa avventura, tuttora azienda imprenditoriale dove la seconda generazione della famiglia Vicario, Daniele e Rossana, ha implementato le attività produttive, inizialmente focalizzate sulla rubinetteria cucina, includendo il bagno e lo spazio doccia.

Questo significa che la volontà di mettersi a confronto con le proprie capacità ed i propri prodotti da una parte e di aver avuto un riscontro positivo in termini di accettazione da parte dei clienti, ha premiato l'imprenditorialità di ARMANDO VICARIO, sia come fondatore che come società nel divenire.

active markets

At the beginning of the 80', Armando decided to expand the Company's development strategies in the international markets. This decision led to a significant change in mentality and market approach, with a necessary extension of products portfolio, to meet the requests coming from new markets.

1974: the story of Armando begins, still today an entrepreneurial Company now managed by the second generation of the family: Daniele and Rossana, who implemented the production activities, initially focused on the kitchen faucets segment with the new bathroom faucets and shower components segment.

This successful decision confirmed that the willingness to get involved with his own skills and products on one side and receive a positive customers acceptance on the other, rewards the entrepreneurship of Armando, both as a founder and Company President in the future becoming.

Ispirazione e passione per il suo lavoro. Sono questi i presupposti con i quali Armando Vicario ha fondato l'azienda circa quarant'anni fa, per incorporare le sue capacità tecniche e commerciali in un marchio che raccontasse le stesse e di conseguenza iniziare ed implementare la sua visione in un'azienda produttiva per mettersi in gioco e confrontarsi con il mercato.

Un progetto articolato, dove hanno interagito ed interagiscono tuttora una comprovata capacità di prevedere l'evoluzione del mercato, un affinato e sempre in evoluzione know-how interno in grado di far cooperare menti ed abilità manuali, condividendo le stesse passioni e capacità del fondatore.

L'azienda è certificata ISO 9001. Produciamo nel rispetto delle linee guida delle principali normative internazionali.

Armando Vicario is the Founder of the Company, aimed by the passion for his job, combining his technical and commercial skills to create his own brand, telling a story becoming a reality in the market. His name committed to the Company Brand to get himself involved and deal with the market.

A structured project, from Armando's proven ability to anticipate the market evolution merged with the continuous development of the internal know-how sharing passions and capabilities of everyone in the Company.

The Company is certified ISO 9001 and production meet several international certifications to be ready to worldwide markets.

An aerial photograph of a dark blue lake. In the lower right quadrant, a small white boat with a red stripe is moving across the water, leaving a white wake. To the right of the boat, a portion of a house with a green roof and white walls is visible, situated on the shore. The text 'IL LAGO' is centered in the middle of the image in a large, bold, white sans-serif font. Below it, the words 'the lake' are written in a smaller, lowercase, white sans-serif font, with wide letter spacing.

**IL LAGO**  
the lake

### **DISTRETTO DEI LAGHI**

L'azienda ha sede a Gozzano, in provincia di Novara (40 km nord-ovest da Milano e a circa 40 km dall'aeroporto di Milano-Malpensa), una bellissima area caratterizzata dalla storica vocazione alla produzione di rubinetteria e lavorazioni dell'ottone.

### **THE LAKES DISTRICT**

The Company is based in Gozzano, (40 km N/W from Milan and 40 km far from Milan Malpensa International airport). The lakes districts area is the historically seat of main Italian faucet companies as well as an amazing place "where to be", thanks to the nice lakes and surrounds.

**PROGETTO**  
p r o j e c t

Nuove risorse specializzate sono entrate in azienda, sia in ambito commerciale che tecnico-produttivo, per portare nuove competenze e capacità che valorizzeranno il percorso dell'azienda nel suo divenire.

Ma senza dubbio la maggiore abilità dell'azienda è quella di trasformarsi internamente, di essere in continuo movimento secondo il dinamismo dei mercati e sempre in armonia con una sostenibilità economica, ambientale e sociale.

New experienced people have joined the company, both in the commercial and technical-productive departments, giving new skills and capabilities that will enhance the company's path in its development.

But undoubtedly the greatest skill of the company is the ability to transform itself internally, to be in continuous evolution according to the dynamism of the markets and always in harmony with the economic, environmental and social sustainability.

### **MADE IN ITALY È IL NOSTRO VANTO**

I rubinetti Armando Vicario sono interamente disegnati, progettati e prodotti in Italia: frutto di ricerca, esperienza, "saper fare" e passione a tutela della qualità e sicurezza del cliente.

### **MADE IN ITALY IS OUR PRIDE**

Armando Vicario brand combines Italian design with a passionate manufacturing style, as a result of a long terms research for details and functionality, to preserve quality and customers safety.

# ECO - SYSTEM

Apertura su freddo | Cold opening

La leva di regolazione ed erogazione dell'acqua in un miscelatore monocomando tradizionale è posizionata in modo da attivare alla sua apertura l'immediata erogazione di acqua miscelata e quindi richiedendo acqua calda anche se non necessaria, con un conseguente impiego di energia.

Con i miscelatori monocomando dotati di cartucce "ECO-SYSTEM" la leva di erogazione è posizionata per erogare solo acqua non miscelata, che viene gradualmente a riscaldarsi, richiedendo quindi energia, solo mediante il suo spostamento a sinistra.

In a single-lever traditional mixer handle opening immediately activates mixed water, requiring hot water flow even if not necessary, with a consequent use of energy.

In ECO single-lever mixers, equipped with "ECO-SYSTEM" cartridges, the handle is positioned to dispense unmixed water only, which gradually heats up, requiring energy, by moving handle to the left only.

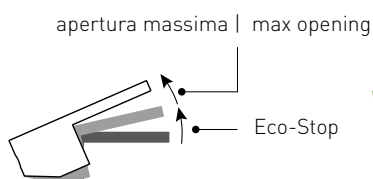

# GREEN

# SOLUTIONS

In un miscelatore monocomando dotato di cartucce "WATER-SAVING" la leva di erogazione si apre con un doppio scatto: il primo permette di limitare al 50% il flusso massimo di acqua miscelata, che diventa massimo solo alla completa apertura. La temperatura dell'acqua si regola nella modalità classica ruotando la leva a destra o a sinistra sino al raggiungimento desiderato.

In a single-lever mixer equipped with "WATER-SAVING" cartridges, the handle opens with a double click: the first limit to 50% the mixed water flow, becoming 100% when fully opened only. Water temperature adjusting according to the classic mode by turning handle right/left until desired one.

## WATER SAVING

A dark, moody underwater scene with water splashing and floating plant matter. The background is a deep, dark blue-green, with numerous small, bright bubbles and droplets scattered throughout. In the lower right, there is a large, dynamic splash of water, creating a complex pattern of white and light blue droplets. In the lower left and bottom center, there are clusters of floating plant matter, possibly seaweed or small leaves, with a reddish-pink hue. The overall atmosphere is mysterious and serene.

Finitura unica nel suo genere. Una ossidazione dell'ottone grezzo ottenuta tramite un bagno di bronzatura il cui risultato finale è un pezzo esclusivo che non garantisce uniformità cromatiche con pezzi diversi per ciascun trattamento.

Unique finishing, consisting in an oxidation of the raw brass through a bronzing galvanic bath whose final result is an exclusive finishing with any guarantee of colour uniformity for each single unit of the same treatment lot.

NU

Finitura ottenuta mediante la spazzolatura dell'ottone con mole abrasive, successivamente trattato con una vernice opaca trasparente. Il pezzo deve essere asciugato dopo ogni utilizzo per mantenere invariate le sue caratteristiche.

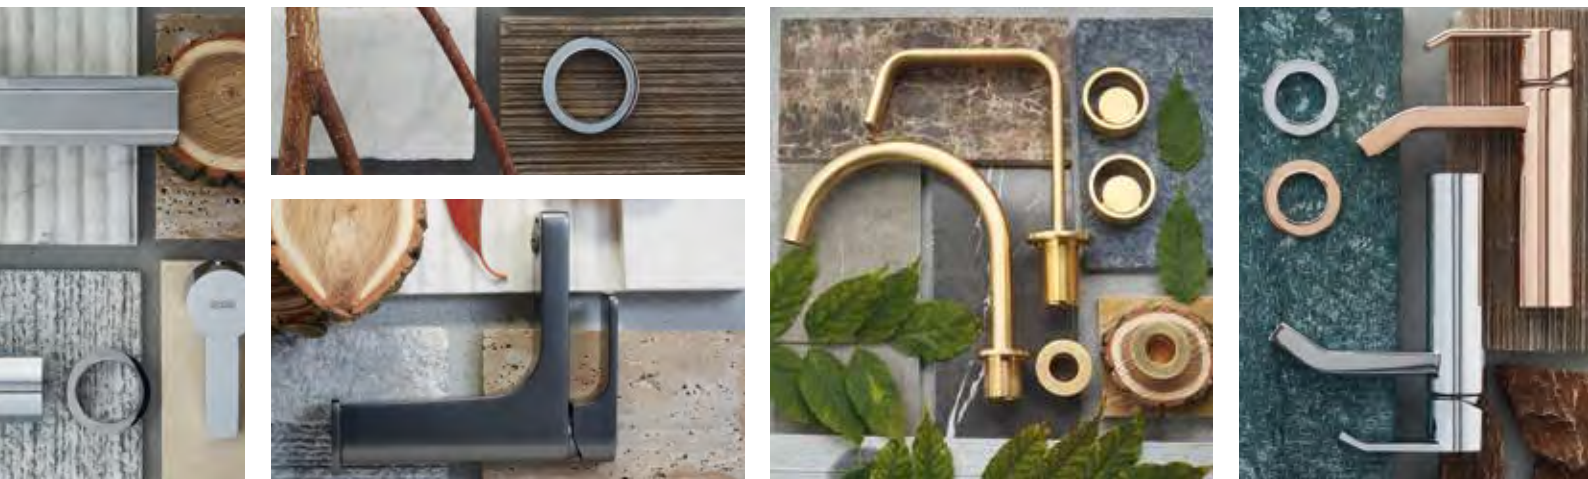

Finishing obtained by abrasive wheels brushing, afterwards treated with a transparent matte varnish. This finishing requires drying after each use to keep it unchanged.

 ARMANDO  
VICARIO

**Vicario presenta NOX, nuova serie di rubinetteria da bagno in acciaio inossidabile AISI 316.** Materiale qualitativamente idoneo per offrire prestazioni meccaniche ed estetiche di elevata qualità, grazie alla sua resistenza alla corrosione ed intaccamento da parte degli agenti chimici, salsedine e quant'altro possa intaccare la struttura di un metallo. Al tempo stesso offre la massima igienicità grazie alla sua particolare conformazione.

**VICARIO presents NOX, a new series of AISI 316 stainless-steel bath taps and showers.** Qualitatively suitable material to offer high quality mechanical and aesthetic performance, thanks to its resistance to corrosion activated by chemical agent, saltiness and anything else could harm the metal surface. At the same time, it offers maximum hygiene thanks to its particular conformation.

### **OFFERTE**

Le offerte non impegnano il fornitore a definire il relativo contratto di fornitura. I contratti non sono definitivi se non dopo che siano regolarmente accettati dalla Ditta.

### **PREZZI E MODALITÀ DI PAGAMENTO**

I prezzi non includono l'imposta sul valore aggiunto (I.V.A.). I costi d'imballo e trasporto non sono vincolati al contratto di fornitura ma sono soggetti agli eventuali aumenti che dovessero intervenire prima della spedizione. Il pagamento delle fatture deve essere fatto nelle forme, modalità e termini in esse indicati; trascorsa la scadenza stabilita decorrerà, senza avviso alcuno, l'interesse in ragione del 5% annuo in più del tasso ufficiale di sconto vigente al momento della scadenza. In caso di contestazione del cliente su di una fornitura riconosciuta ufficialmente dal fornitore, potrà essere data autorizzazione a modificare le suddette modalità di pagamento. Il fornitore si riserva il diritto di sospendere le consegne in caso di mancato pagamento di precedenti forniture.

### **VARIAZIONE PREZZI**

Le offerte e conferme sono fatte con riserva di revisione prezzi da parte del fornitore, in relazione all'eventuale aumento del costo dei materiali e/o manodopera senza obbligo di darne giustificazione o dimostrazione dei relativi conteggi.

### **CONSEGNE**

Il termine di consegna non costituisce elemento essenziale del contratto di fornitura; difficoltà di consegna, dovute a gravi motivi impreveduti all'atto della conferma, autorizzano il fornitore alla risoluzione del contratto senza responsabilità di nessun genere. La data di consegna indicata nelle conferme si riferisce alla decade in cui la merce è pronta a magazzino per la spedizione. Il fornitore si riserva il diritto di effettuare la consegna di un ordine in una o più spedizioni. Fotografie, disegni tecnici o altri riferimenti presenti nel catalogo non sono vincolanti. Il fornitore si riserva il diritto di apportare eventuali variazioni alla produzione che comunque non ne diminuiranno la validità e la qualità. Tutte le consegne sono rese franco stabilimento del venditore e viaggiano ad ogni effetto a rischio e pericolo dell'acquirente anche se la resa è stabilita franco destino e il trasporto eseguito con automezzi del fornitore.

### **RECLAMI**

Tutti i reclami riguardanti la merce, ivi compresi quelli relativi al numero, difetti e difformità, devono essere fatti per iscritto ed a pena di decadenza entro 8 giorni dal ricevimento della merce.

### **EFFETTI LEGALI**

Qualsiasi condizione indicata dal compratore in contrasto con quelle indicate nel contratto di fornitura non avrà valore. Per qualsiasi omissione di condizioni si farà riferimento al codice civile italiano. La nullità di una condizione del contratto di fornitura non toglierà validità alle altre condizioni. Per qualsiasi vertenza o contestazione l'unica e competente autorità giudiziaria è quella di Novara.

### **OFFERS**

The offers don't commit the supplier to define the related supply contract. The contracts are not definitive if they aren't regularly accepted by the company afterwards.

### **PRICES AND PAYMENT CONDITIONS**

The prices don't include the value added tax (VAT). The supply contract doesn't bind packaging and transport costs, but they are subject to possible increases if they should occur before shipment. The payment of the invoices should be carried out in the forms, ways and terms indicated in them; after the expiry of the established date to be due, there will be applied an interest of 5% yearly as well as the official discount rate in force at the moment of the expiry, without any advice. In case of customer's claim concerning a supply officially accepted by the supplier, the above-mentioned payment conditions could be modified upon authorization. The supplier reserves the right to suspend the deliveries in case of failed payment of the previous supplies.

### **MODIFICATION OF PRICES**

The offers and confirmations are carried out with revision reserve of prices by the supplier, according to possible cost increases of the materials and/or labour without having the right to give justification or demonstration of the related counts.

### **DELIVERIES**

The term of delivery doesn't constitute a main element of the supply contract; difficulties in delivery due to serious unplanned reasons during the confirmation deed, authorize the supplier to the cancellation of the contract without any kind of responsibility. The delivery date indicated in the confirmation documents refers to the 10-day period where the goods are ready in the warehouse for shipment. The supplier has the right to carry out the delivery of an order in one or more shipments. Photos, technical drawings or other references present in the catalogue are not binding. The supplier has the right to apply possible modifications to the production, which however won't diminish the validity and the quality. All the deliveries are shipped ex-works and travel at purchaser's risks, even if the the goods are delivered free to destination and the transport carried out by means of the supplier.

### **COMPLAINTS**

All the complaints regarding the goods, including the ones related to the number, defects and differences should be carried out in writing and within 8 days after receipt of the goods.

### **LEGAL EFFECTS**

Each condition indicated by the purchaser in contrast with the one in the supply contract is not valid. Refer to the Italian civil code for each omission of conditions. The nullity of a condition in the supply contract doesn't withdraw the validity of the other conditions. The jurisdiction in Novara is the only competent one for every dispute or challenge.
